JOSHUA ONYEKA

Frontend Developer | Lagos, Nigeria
joshuaonyeka2020@gmail.com | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Innovative Frontend Developer with a strong foundation in Computer Science and a proven track record of building high-performance, user-centric web applications. Expert in **React.js, TypeScript, and Tailwind CSS**, with a focus on architecting scalable digital solutions. Distinguished as a **Hackathon Winner** for engineering AI-integrated healthcare technology. Passionate about leveraging modern frontend architectures to reduce page load times and elevate user engagement metrics.

CORE SKILLS

- **Languages & Frameworks:** JavaScript (ES6+), TypeScript, React.js, Next.js, Vite, HTML5, CSS3.
- **Styling & UI/UX:** Tailwind CSS, shadcn/ui, Framer Motion, Radix UI, Figma (Prototyping & Design Systems).
- **State Management & Backend:** Redux, React Query, React Hook Form, Zod, API Integration (RESTful), Google Gemini AI integration.
- **Tools & Platforms:** Git, GitHub, Vercel, Firebase, Figma, RESTful APIs, VS Code.
- **Competencies:** Responsive Design, SEO Optimization, API Integration, State Management, Web Performance Tuning.
- **Soft Skills:** Problem-Solving, Technical Communication, Team Collaboration, Agile Methodologies.

PROFESSIONAL EXPERIENCE

Frontend Development Intern | SideHustle *April 2023 – June 2023*

- Developed and maintained responsive user-facing features using HTML, CSS, and JavaScript.
- Collaborated with senior developers to debug and optimize code, resulting in improved application performance.
- Participated in the full software development lifecycle (SDLC), from initial UI prototyping to final deployment on Vercel.

Hackathon Project (Vitalink Project) | Cavista Technologies *February 2025*

- Engineered **Vitalink**, an award-winning healthcare platform that uses ESP32 sensors to track SpO2, heart rate, and temperature in real-time.
- Implemented an AI model to predict blood pressure trends, significantly showcasing skills in data analysis and machine learning integration.

- Managed version control and resolved complex Git conflicts within a team environment to ensure timely delivery.

FEATURED PROJECTS

Judeiria – Business Consultant Platform | *Freelance Client Project*

- **Tech Stack:** React, TypeScript, Vite, Tailwind CSS, EmailJS, Framer Motion.
- Designed and deployed a high-conversion portfolio website for a business strategy consultant.
- Implemented **Framer Motion** for advanced page transitions, enhancing the premium feel of the brand.
- Integrated **EmailJS** to handle client bookings and inquiries directly from the frontend without a complex backend.

BoukarTech – Corporate Agency Website | *Freelance Client Project*

- **Tech Stack:** React, TypeScript, Shadcn/ui, Lucide React.
- Built a scalable multi-page website for a tech solutions agency, showcasing services like mobile development and digital transformation.
- Utilized **Shadcn/ui** to create a reusable component library, ensuring design consistency across the application.
- Optimized the site for SEO and performance, achieving high Lighthouse scores for accessibility and speed.

RentChain – Decentralized Property Platform | *Open Source Collaboration*

- **Tech Stack:** React, Blockchain (Morph Network), Web3.js.
- Collaborated with a backend engineer to build a decentralized application (DApp) for transparent rent payments.
- Developed the client-side logic to interact with smart contracts on the **Morph network**, enabling secure, trustless transactions between landlords and tenants.

EDUCATION

- **Bachelor of Science in Computer Science** | Lagos State University of Science and Technology | *Expected 2027*
- **National Diploma in Computer Science** | Lagos State Polytechnic | *2023*

CERTIFICATIONS & TRAINING

- **Frontend Development Certification** – SideHustle (2023)
- **Accelerated Soft Skills Training** – Jobberman (2023)
    - Focused on professional communication, problem-solving, and workplace dynamics.
